### **DETAILED ACTION**

1. Claims 23, 25-27 and 29-50 are pending in this application.

#### ***Specification***

2. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: The claim limitations of the metal atom precursor being a metal salt which is a silver halide (see claims 33 and 34 for example) does not have proper antecedent basis in the originally filed specification, it is present in original claims 2 and 3.
3. It does not appear this objection was addressed in Applicant's response to the last office action.

#### ***Claim Rejections - 35 USC § 112***

4. Claims 39 and 49 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 39 and 49 recite aspect ratios of the conductive

pattern which are not taught by the originally filed specification. The specification teaches an aspect ratio of about 5 for the pattern made using the mask not the aspect ratio of the conductive pattern.

5. The claims under rejection for the recitation of the width have been removed from the rejection due to the amendments made to the specification and Applicant's arguments. As to claims 39 and 49, Applicant has argued that Example 8 in the specification teaches this recitation. Example 8 recites a "high aspect ratio" but does not teach the value recited in the claims.

***Allowable Subject Matter***

6. Claims 23, 25-27, 29-38, 40-48 and 50 are allowed.

***Conclusion***

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee

pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
